- TOP TIP:** When you click on a book to choose to read it it will show you:
- The themes - are these themes you are interested in? Look carefully at these when you are picking a new book. If you say it's "not for me", Sparx will know that you're not interested, but they might recommend it again later in case you change your mind.
 - A synopsis – read this carefully to find out what the book is about.
 - An opportunity to read a sample before you start reading.
 - An indication of whether this book falls into some of your favourite book preferences.

Not keen on a book?

If a book isn't right for you, just click 'Not for me' and we'll show you a different one.

You can do this up to 3 times a week. We may show you the same book again in a while in case you change your mind!

Once you start reading, you can swap the book if you really aren't enjoying it. Remember, Sparx only lets you do this three times before you must read the whole book, so don't swap unless you're sure.

As you read, Sparx will pause at key sections to ask you multiple choice questions. The sections will be shorter at the beginning, whilst you are getting into the book, and longer the further you get through. As you are reading, you can also look up words that you don't know, to help you understand. Just hover your mouse over the word.

TOP TIP: You earn a bonus for answering questions right the first time you read a section of the story, so make sure your first read through is really thorough – it will earn you SRP faster!

Gold Readers can add their own books to Sparx Reader and read them to earn SRP.
